

Levelstep DLRLG/P

- **Levelstep Direct Replacement probes for:**
- **RAC VALVES RLC100ES63 high pressure probe**

The DLRLG/P Levelstep conductivity level probe is a high-quality direct replacement probe designed to replace the RAC VALVES RLC100ES63 (Cesare Bonetti) high pressure probe.

Our probes all use tried, tested and reliable designs to ensure long service life. All direct replacement level probes are of equal or better quality compared to the original manufactures equipment.

The design and technology used in all our conductivity probes make them highly reliable and easy to use. Our specialist brazing and gilding process forms a very strong and proven joint between the high-quality stainless steel components and zirconia insulator.

All Levelstep probes feature a large thumb nut for ease of use when connecting probe cables. An anti-vibration washer has also been incorporated to ensure a reliable probe cable connection.

All probes are Helium leak tested after manufacture, this ensures that every one is free from even the most minute flaws during the brazing process.

We only use high-quality spiral wound stainless steel and graphite gaskets that are manufactured in the UK, or high-quality stainless steel compression nuts, this ensures a strong and reliable seal every time.

TECHNICAL COMPARISON

MANUFACTURER	DRUMLINE	RAC VALVES
Part Number	DLRLG/P	RLC100ES63
Body Material	Stainless steel	Stainless steel
Insulator Material	Zirconia	Zirconia
Connection Method	Screw thread	Screw thread
Seal Type	Uprated kam Gasket	Graphite Gasket
Overall Length	58mm tip to seat	58mm tip to seat
Thread Length	NA	NA
Tip Diameter	11.8mm	12.3mm
Cable Connection	Thumb nut with spring washer	Knurled nuts
Temperature Rating	370 deg C	370 deg C
Pressure Rating	207 bar	207 bar
